Vol. 1, No. 5.

Thursday, January 16th 1947.

Twopence.

MASS RADIOGRAPHY

The Radiography Unit will be at the disposal of all students on the following dates: January 14th, 15th and 16th and February 3rd, 4th and 5th. The times are 10-10-45; 11-11-45; 2-2-45 and 3-3-45 p.m.

About 500 people can be dealt with each day. Those wishing to take advantage of the service will have to go to St. James's Hospital in Beckett Street. (No. 42 'bus from the stop by Lewis's in The Headrow).

This is the second time that the Unit has been made available to us; on the last occasion 1,200 students and members of staff took advantage of the service. From now onwards it is hoped to make the service an annual event.

The Assistant Director of the Unit has sent the following paragraphs to the **Union News** by way of a short explanation of the work done by this service.

We have again arranged for the Leeds Mass Radiography Service to X-ray the chests of all students who complete application forms, already distributed by the Student Health Committee.

We hope to make this check-up on health an annual affair, in the future. The most important disease disclosed by the X-rays is pulmonary tuberculosis. If everyone, whether feeling healthy or not, volunteers to be X-rayed once a year, it will be possible to spot early disease long before it has had time to get established and make people feel ill. At this stage permanent cure is a relatively easy matter which probably would not involve abandoning studies. Very few students actually contract pulmonary tuberculosis, but—complete your form to-day and make sure about yourself.

The examination, which will be carried out in February, is simple and takes only a few minutes. The findings are absolutely confidential, and the student's consent will be obtained, even before communicating with his own doctor.

The invitation is particularly addressed to first-year students, every one of whom we want to X-ray in February. Don't miss this opportunity.

Extracts from **Union News** may not be quoted in other publications without permission.

Subscription rates: 7/6 per annum, post free.

V.S.

THE BRITISH LEGION

Formation of a Leeds University Union Branch.

The objects of the British Legion are (to quote from the Constitution):—

- (1) To promote comradeship, to remember the fallen.
- (2) To care for the disabled, the widow and the orphan.
- (3) To **speak up** on pensions and employment."

The British Legion is a democratic, non-party organisation.

The objects quoted interest all ex-service students of the University and for this reason a meeting of ex-service students will be held on Tuesday, Jan. 21st at 5 p.m., in the Riley-Smith Hall, to establish formally a branch of the British Legion here.

The British Legion is already actively helping a number of students of this University, and has pledged itself to continue to do so. There are many ex-service students in this University who will require the help of the British Legion in the future, and this is one of the main reasons for the formation of the University Branch.

The Legion activities cover many spheres, ranging from practical assistance to social functions dependent on the needs of the branch membership.

This is your branch and with your support it can be an unqualified success. If you are

already a member of the Legion you can transfer to this branch for the period of your stay at the University. If you are not already a member, the advantages of membership cannot be too highly stressed.

All ex-service students, both men and women, are equally eligible for membership, and there is no distinction of rank made in the Legion.

Any further information required before the meeting may be obtained from Grants and Welfare Representative of the Legion: Mr. G. B. Whitaker.

Will you please come along and give your support — Remember Tuesday, 21st January, at 5 p.m.

Questionnaire.

The Questionnaire will be sent out to all students, as far as possible, who did not receive it last term and the Committee urge that they be completed and returned as soon as possible and that those students who do not receive a Questionnaire will call at the Grants and Welfare Office and obtain one. K. Lindsay, M.P., was able to support his statements in the House of Commons by facts obtained from Questionnaires and it is stressed that if the Committee is to assess student problems that the Questionnaire should be completed by every student.

Ballet in the Union

This week is perhaps the first time that Ballet has been given in the Union, but the Ballet Rambert has made up for this long neglect in University Art.

The Company came of age this Summer. It was founded in 1925 by Marie Rambert (who had come from the Diaghileff Company), and spent its early days at the Mercury Theatre working for the Ballet Club. For those who have never had the delightful surprise of entering the Mercury and finding it about the same size as our cafeteria, we may point out that it is a very tiny stage, compared to which the Riley-Smith is quite large. Consequently the Company, so far from having to adapt themselves to the limited playing area here, find that they have plenty of room. Perhaps that is why a ballet such as "Les Sylphides," which is one of the largest when performed in full, can be done by this Company without a suggestion of being cramped.

Many of their followers in the North have regretted that they were not able to bring with them their newest ballet — "Mr. Punch," the balletic version of the traditional seaside entertainment—but it is too large and elaborate a production to take to a small theatre. However, when the contract with C.E.M.A. ends this Easter the Company will return to playing in the large professional theatres, when we hope to have a chance of seeing this scintillating new work.

I.C.

National Health Insurance.

A Government scheme exists whereby all students in receipt of F.E.T.S. awards will have their N.H.I. contributions paid by the Government as during military service. Most Societies have been informed and should be able to give you further information should you desire it.

Disability Pensions.

Disability Pensions are not taken into account when an F.E.T.S. award is assessed.

RESOLUTION.

With the best of good intentions for the New Year, **Union News** is planning to introduce new features. It will be remembered that in the first issue a declaration of aims was made, in which **Union News** explained that its sole right to existence was to furnish the Student Body with a comprehensive survey of current University News.

In that attempt it has been most successful, but even its enthusiastic editors had to admit that it had often been comprehensive at the expense of being dull.

However, with the usual angelic sincerity, the editors solemnly resolved that they would turn over a new leaf in the New Year and, with the confidence that **Union News** is now an established institution, try to bring different and more exciting features to the fore in 1947.

Just how far that will be achieved rests, remember, not with the editors (who usually need to put in some 10 hours' work per issue or more) but with the contributors (for whom the effort is slightly less intense).

Now for the kind of copy required. **Union News** does not intend to go back on its decision to print news only, but it is anxious to broaden the outlook of that news. Slick reporting of a less serious nature than hitherto; well told anecdotes of events which are worth recording; even "gossip" (but remember—the keynote of gossip is discretion!) Naturally, the editors cannot promise to print everything they receive, but original and varied comment will go side by side with the more serious matter, and don't forget—there is always room for good copy.

Correspondents are reminded that all letters and articles must be signed, although names will only be disclosed if the contributor so wishes.

The next issue of **Union News** will appear on Thursday, January 30th.

Pair skates, with boots (Ladies size four).

Badminton Raquet, press and case—as new.

Apply Box Five,

Union News.

This and That

A Happy New Year to 'e all. Remember, finals are only six months away, so noses to the grindstone!

Promotion ?

It is rumoured that the Executive are to discuss whether the Junior Vice-President shall become automatically a member of the Executive Committee on election to office. Any decisions reached by them will of course have to be ratified by the Union Committee and by the A.G.M. It seems to us that there should be no argument against it, unless it is that the Committee is large enough already.

The J.V.P. represents the Union at many social functions, particularly at other Universities, and should be in possession of all the latest developments and difficulties at Leeds. To keep up with these affairs he would have to be on the Executive.

Financial Year.

Our sympathies to Derek Miller who saw the New Year in over a discussion table trying to work out the finances of the newly-formed United Nations Student Association. We will no doubt hear what went on at that Conference when the U.C. meets on Thursday.

Nothing Bar-red.

If we can persuade the Union Building Advisory Committee to meet in the near future, the question of a bar in the Union can be discussed.

Playtime.

Congratulations to the Theatre Group on their visit to the Drama Festival at Birmingham. We understand that the finish which they gave to their play left the audience literally stunned, (so they say!). We have not yet ascertained how many bottles of brandy were needed to restore the audience to their senses.

NOTE.—If any benevolent individual would care to find a thousand pounds we understand that the Theatre Group would be able to visit Prague to compete in the International Drama Festival (ADVT.)

Rag.

Should Charity Student Rags be continued even when the Hospitals are nationalised? We feel that they should but that the proceeds should go to some other worthy charities. Anyhow, it will not be long now before elections of the Rag Committee take place, so be on the look out for suitable candidates.

On Strike.

The question of students participating in strike breaking has been discussed in detail, but we should like to remind you that

there will be a full debate on the issues involved early this term. We only hope that the discussion will be along quieter lines than when this topic was discussed at Birmingham. As an indirect result of a similar debate the whole Birmingham Union Committee resigned at the end of last term, and we do not want a similar situation to arise here.

Service !

Many readers will already know that we are having to sacrifice our tennis courts outside the Union in the cause of food. However, the architect who is to design this new Refectory has been asked to make provision, if possible, for tennis courts on the roof. Whether a row of washing will serve as the net is not yet clear.

Keep it Covered !

Our literary friend, **The Gryphon**, is looking for a new design for the cover. Any ideas? A suggestion from an Engineer that it should consist of two tankards salient with a beer barrel rampant surmounted by a medic. couchant and inscribed "Per Ardua ad Firkin," has not met with much support.

Film.

It does not appear as if we shall be able to fit up the Riley-Smith with a 35 m.m. cine-projector after all. If the Hall is not licensed under the cinematograph act, only six performances can be given per year, and if it is licensed the seats must be fastened to the floor. Since neither of these conditions can reasonably be satisfied the only alternative is to have a 16 m.m. projector.

There is no reason why, if we do have 16 m.m. film, we should not obtain a cine-camera and so record major events in the Union, such as the Rag.

Tailpiece.

A correspondent happily recalls the motto on the Brewers' Arms in Chester, which read: "*Hinc Lux Effulgit.*"

Thursday, January 16th :
Ballet Rambert, R.S.H., 7 p.m.

Friday, January 17th :
Chamber Music : Brain Wind Ensemble, 1-20 p.m., Great Hall.
Ballet Rambert, R.S.H., 7 p.m.
Social French Society, S.R., 7-11 p.m.
Debate : Social Room; 5-7 p.m.

Saturday, January 18th :
Social : Physical Society, S.R., 7-11 p.m.
Ballet Rambert, R.S.H., 7 p.m.

Monday, January 20th :
Lecture : Meditations on the Evolution of a Continent, by Prof. J. H. F. Umbgrove, Chem. Lec. Theatre, 5-15 p.m.
Gramophone Recital, S.R., 1-2 p.m.

Tuesday, January 21st :
Ex-Servicemen's Meeting, R.S.H., 5-7 p.m.

Wednesday, January 22nd :
Film Show : L.Sc.F. Society, R.S.H., 7-9-30 p.m.

Friday, January 24th :
Social : Soc. Dip. Society, R.S.H., 7-11 p.m.
Lecture : The Contribution of British Agriculture to our Food Supplies by Prof. J. McGregor, C.L.T., 1-20 p.m.

Saturday, January 25th :
Social : J.S.A., S.R., 7-11 p.m.

Monday, January 27th :
Gramophone Recital, S.R., 1-2 p.m.
Open Meeting, S.C.M., R.S.H., 1-2 p.m.

Thursday, January 30th :
Film Show : I.S.S., R.S.H., 1-2 p.m.

Friday, January 31st :
Medics. Ball, R.S.H., 8 p.m.

The Union Muse

Though I very rarely vary
 I must really be more chary
 At next year's January
 Than I was this year.
 Resolutions (good intentions)
 Which I vowed would get
 attention
 I have broken without mention
 Of apology. I fear
 That these New Year resolutions
 Which (just like a dose of
 Kruchens)
 Are an aid to constitutions
 That are weak like mine,
 Though in principle adorable
 Are easily ignorable—
 A fact which is deplorable
 To face. I pine
 Without any relaxation
 For the self-determination
 To resist the great temptation
 To forget each vow
 Which I made this January;
 But next year I'll be more chary.
 Here's an end of this vagary—
 Am I glad? And how!

LOOKING ON

Pantomime.

With the usual arrogant intellectual disgust, the students of this University are glaring at the posters which advertise endless weeks of Pantomime—eight at the Grand and twenty at the Royal—which must run before serious plays can be seen again in Leeds.

The explanation for this annual phenomenon which everyone deplores and for which no one can account is very simple—so simple indeed that our reporter has been quite unable to see the show at the Grand and only by influence and willingness to sit on the steps was able to see that at the Royal. The explanation is of course, that the house is packed to suffocation at every performance and remains so throughout the run.

Why something like 400,000 people should wish to attend the Theatre Royal Pantomime is a little matter for social psychologists to investigate: our reporter, after seeing the show, felt that it was self-evident, and that even an "advanced intellectual" could thoroughly enjoy it.

Here is what he says: "Last night I saw 'Jack and the Beanstalk' at the Theatre

Royal, and despite the fact that I have a weak spot for T. S. Eliot and revel in Greek Tragedy, I found myself quite enchanted by the novel medium which pantomime represents. Under a thick layer of 'commercial sales-talk' which is intended to sell the show, there was, to me, a deep core of a medium which has been maligned and emasculated by the overproud. That I should be held by three hours of very unrealistic, impossible fantasy—and yet believe every word of it, was a proof of its effectiveness. Despite the fact that the hero Jack falls in love with his Princess in approximately 30 seconds and promptly dances with her—supported by all the village!; that every so often a scene would be interrupted to allow the comics to introduce their superb fooling; that costumes of all periods and no period were mixed along with the highly coloured and very artistic scenery; and references were all up-to-the-minute, I never doubted for a moment but that it was all true. Even the giant—looking very impressive in his great body—reminded me that he might just have walked from the Athenian stage.

You can find all about the players in the press and see their

photographs hanging outside the theatre every day, but I might mention that there is not one who does not blend perfectly into the medium. The fairy's wand may be but tin and tinsel—but there's magic in it!

If you want to see it you'd better book now—you may get in some time in April."

PETER VEAUX.

L.U.U. Gramophone Library.

During the Autumn term the usual lunch-hour recitals were given to full houses. An experiment with evening recitals was tried, but with the exception of the performance of Beethoven's Ninth Symphony these were poorly attended and will be discontinued.

Many more records were borrowed last term, yet only one case of misuse has come to our notice. It is noticeable that records that have been used in recitals are more frequently borrowed than those which are still "only a part of the catalogue."

The library was extended considerably last term and several new recordings are ordered for this term.

M.H.

Letter to the Editor

Sir,

During the Xmas term there was a notice displayed in the University asking us to hear a certain Air-Commodore Wiseman. Among the reasons given was the fact that we could not criticise the Christian point of view unless we came to listen. It is of course flagrantly absurd to make such a suggestion, when the Christian point of view has been before us for 1900 years; and we are fully entitled to criticise it without having attended a single L. U. C. U. Meeting. This incident, and the fact that the absurdity has gone unchecked until this moment, illustrates the general fact that the anti-religious people in the University are not sufficiently organised by comparison with the religious.

Yours, etc.,

MARK.

SOCIETY NOTES

The Engineers, 1947!

Starting off the New Year with a bang, the Engineers kept up their tradition in making the Engineers' Ball rank amongst the major events of the session.

Although so near the beginning of term the Ball was well attended, and many favourable remarks were passed upon the skill and ingenuity shown in the decorations. Many students had their first opportunity of meeting a real and very live steam engine, "driving" an electric generator, which in turn was feeding a small lamp. We wonder if many other guests deduced as much. A miniature lighthouse was standing in a seascape in the J.C.R., sending outside some Morse message, but not even the Air Squadron types could elucidate its meaning. Unfortunately the beacon went out early in the evening in the middle of a blank, so darkness persisted once more and one was obliged to find one's own way around.

Credit is also due to the designers of the two electric signs which dispelled any doubts as to the organisers of the Ball. The old Spanner was in its usual place in the entrance hall.

Due to sudden illness, from which we hope he will soon recover, Professor David was

unable to receive the guests, but Professor and Mrs. Evans took his place at short notice.

Both the band and the supper went down well. The only trouble was that the Bar ran out early in the evening, but what can one expect with these hard drinking Engineers around?

FLASH!

A group of Engineers are looking for a certain individual who relieved the Social Room of one of the table lamps with a view to immersing him in the water tank in the Hydraulics Lab.

Debating Society.

No matter how brilliant he may be, a student cannot make a success of his career without being able to master the art of self-expression. The Debating Society, being open to all Union members, gives to the student the opportunity to learn the finer points of speaking, and at the same time, to develop self-confidence.

The success of the meeting naturally depends on the number of members present. Of the regulars I ask, "Persuade your friends to come." To those who do not know us I say, "Give us a trial—you have nothing to lose and much to gain."

Above all I ask those who are willing to take a leading part in any debate to send me their names.

During Lent Term, we hope to welcome an authority on the art of speaking who will give a lunch-hour talk, and to hold a number of debates, including, on February 24th, the Annual Inter-Varsity Debate.

On January 17th, at 5-15 p.m., the first meeting will take the shape of a debate on the motion, "That this house approves the strike-breaking action of the Manchester Students."

Jon Rummlesburg.

Women Day Students.

With this first term over, most Fresher Women Day Students will have settled in well enough. But there will still be many problems cropping up and the Warden, Mrs. Sledge, is anxious that everyone should take advantage of the assistance she offers. For Union matters, students should get in touch with Margaret Hetherington (Chem. Department), who is their representative on the Union Committee.

Christmas Concert and Nurses' Coffee.

On the evening of Dec. 19th, the Medics. gave their Annual Christmas Concert to the Nursing Staff of L.G.I. in the Riley-Smith Hall. It followed the lines of the

concert given last year, but was infinitely more successful. The Riley-Smith was decorated out of all recognition for a total cost of 12/1, and was filled to capacity, a fact which disturbed the performers to no small extent.

The first half was devoted to a series of acts ranging from pianoforte duets and tenor solo to all varieties of comedy acts and sketches, all were interspersed by the most peculiar noises offstage.

The highlight of the evening was the pantomime "Cinderella," the script for which had been written by the cast. The Prince, J. P. Falkingham, resplendent in scarlet, found his match in Cinderella, resplendent in tattered black-out material (Tony Clark.) The fairies, led by the Fairy Queen (Dennis Brackenridge) were Bill Sutcliffe, John Shoemith, Tom Marshall and John Crossland; their dance in the first act brought the house down.

Being a pantomime to end pantomimes, it was not surprising to find the Fairy Queen delivered to the Devil (Bob High) in the last scene.

Following this epic, came an ample supper succeeded by dancing until midnight; and in those well known words, a good time was had by all.

SPORT

Reflections.

During the past term some of our teams have acquitted themselves with honour; the Soccer team for instance has won the Christie Cup and Northern U.A.U. Championship, whilst the Cross-Country team has again retained the Senior Christie Cup. Congratulations are due to all concerned as well as to those who have played in the various U.A.U. matches.

Concerning our other teams little can be stated with advantage; they have played well and to the best of their ability, but there sometimes seems to be a lack of the finish and polish which is often all important. This is probably no fault of the teams themselves, but rather is it due to the present system we have of running Athletics generally. Other Universities abandoned our system years ago, and why we blunder on in the present fashion one cannot imagine.

It has become clear that it is quite fantastic for any G.A.S. to do his job efficiently in his spare time under the present system; it is in fact a whole-time occupation for any one person. What is needed is a separate Athletics Union, with its own officers and permanent clerk. Only when this is attained shall we cease to stumble forward from year to year and really set about things with a definite objective in view. The plans for this should be laid now and put into operation as soon as possible; the present G.A.C. must be prepared to leave

its work to be completed by its successor.

At its first meeting the G.A.C. set up an Executive Committee for the first time for many years; this step would seem to have been long overdue.

One of the most urgent problems it has to consider is the lack of continuity in the various sports from year to year. The most important result of this is that we are never represented on any of the important Representative Committees, and hence our players never get a look in at any of the first-class matches. This difficulty should be easy to overcome by the election of committees for each sport, which have among their number members of staff who can be relied upon to give the club support for a number of years. It would also help if prominent figures in sport could be induced to serve on the various selection committees. Such a step would ensure that outside contacts were made and kept. Similar schemes operate well in other Universities; their success depends, of course, upon the willingness of members of staff to co-operate. We hope they will not be slow to come forward if approached.

A solution along these lines would also serve to counteract the tendency which exists at the moment for some players to play in teams other than those of the University in order to gain better recognition for their talents.

Another problem which has occupied our attention recently is that of Colour Awards. This is a question of comparatively

minor significance, often inclined to assume a greater importance in the eyes of many people than is really justified. It is hoped that a solution will be reached at a special G.A.C. Meeting on January 14th.

From this survey it is hoped that people will get a general idea of what is going on in the sphere of Athletics, and further that it will stimulate discussion of the problems under review. The G.A.C. is always pleased to hear your grouses and ideas, either directly, or indirectly by a letter to the **Union News**.

Cross Country.

The Annual Christie was held at Manchester on Saturday, December 7th. The Leeds team arrived with one man missing, and during the course of the race, a second man, one of our best, fell out owing to foot injuries. In spite of these setbacks, the team rose to the occasion and won with a total of 46 points. This was a very creditable performance and means that we retain the Senior Cross Country Cup for another year. Manchester were second with 60 points, and Liverpool third with 65.

D. W. M. Haw, the Leeds Captain, was first home and only 1 second outside the record time, despite the fact that he missed his way on several occasions.

The second team were not so fortunate at Liverpool, partly due to the fact that several of the regular members were unable to attend owing to pressure of exams. Liverpool won the Junior Christie Cup. Manchester were second and Leeds third.

Soccer.

The University won its friendly match against Birmingham at the latter's ground by 2 goals to nil. The University began by playing good constructive football, and notched two very methodical goals early in the first half, one of them while Birmingham had only ten men on the field. Bill Mills scored them both, and he is now moving steadily towards his season's goal of a round half century. In the second half, the play deteriorated, and the football became scrappy. Neither side could combine well enough to produce dangerous movements, and it soon became apparent that the two goals scored in the early stages were to have no more to keep them company.

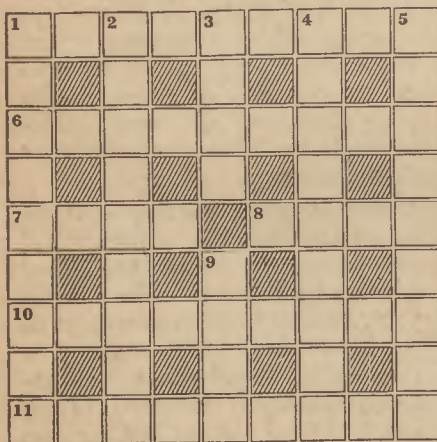

From the beginning of Dec. the Soccer Club has played 13 matches, most of them League games during the vac. The most important match was on December 4th, when Durham University were beaten 3-2. Leeds are now Northern Champions, and meet Sheffield in the English Universities Semi-finals at Westwood on 22nd February.

All the other matches were played with weakened teams, and only two were won. These two were in the Half Holiday League, in which we now have an excellent chance of finishing 2nd.

The greatest disappointment of the vacation was on Dec. 22nd when, with five changes in the first team, we were beaten in the 3rd round of the District Cup.

The summary of matches played this season, up to and including 4th January, 1947, is:-

CROSSWORD

CLUES DOWN.

1. Monetary appetizer? (9).
2. More than praised. (9).
3. Twisted strand. (4).

Basket Ball Results, 1st Team.

This is the first term that inter-departmental Basket Ball matches have been played. There has been a keen interest taken and play has improved considerably since the League was

started in October.

The Basket Ball Club which has been formed is running regular practices which are being well attended.

Matches with other Universities and clubs are being arranged for the coming term.
